data entry keys for entering customer identification information unique to that customer;
a transmitter at said one or more commercial transaction systems for transmitting said
entered customer identification information to a central location;

5 said central location for transmitting to said one or more commercial transaction locations,
customer profile information of said customer in response to receiving said entered customer transaction
information;

10 said central location including a processor for converting said customer profile
information into a profile word, and said central location transmitting said profile word to a select one
of said one or more commercial transaction locations from which said customer is conducting said
transaction;

15 wherein said profile word is decoded at the select one of said one or more commercial
transaction locations to define decode profile information and then merging update information and
advertising information, previously transmitted to the select one of the one or more commercial
transaction locations and stored thereat, in accordance with the defined profile information used as a
control word to control the merging operation, such that the merged update information and advertising
information comprise filtered update information and advertising information filtered by the decoded
profile information[[]]; and

20 a display system for using said previously received and merged update information and
advertising information to generate programming information for presentation to said customer during
the commercial transaction.

17. (Previously Presented): The system of Claim 16, wherein a wireless communication system
is used to communicate between said central location and said one or more commercial transaction
locations.

18. (Previously Presented): The system of Claim 16, wherein said one or more commercial
transaction systems have audio and video presentation capabilities.

19. (Previously Presented): The system of Claim 16, wherein a unique ID is transmitted to said
